Our story

OX Tools is a world leading manufacturer of hand tools, diamond tools, workwear and safety products.

Developed and proven in Australia over the past 45 years, our tools are recognised as tough, dynamic and different across the globe.

As a manufacturer of professional tools we sell direct to the merchants, providing them with excellent service: innovative merchandising solutions and a very powerful brand.

World leading technology...

Look at the detail of the products – the strength and thickness of the steel, the perfect weight & balance, the positioning of the handles – guaranteed better than the rest!

Packed with innovation the phenomenal OX tools raise the benchmark for tool performance to unprecedented new levels.

The materials and construction are of the highest quality to stand up to an unbelievable amount of force.

Only heavy use can really demonstrate the power and resistance of these tools.

Measuring Tools

Few tools are as widely used across the world as the tape measure.

We at OX recognise that and build our tapes to last the test of time. Durability, reliability and innovation are the words we think when designing a new line of tapes.

OX has enhanced it's reputation as a leading tape rule manufacturer with the launch of the new Pro Series short tape, which boasts an impressive 2.8M stand out whilst remaining an extremely compact design.

PRO HEAVY DUTY TAPE MEASURE – 5M

Bricklaying Tools

Bricklaying is a highly skilled trade and is characterised by regional variations in both brick size/shape & laying techniques.

We have spent 4 years working on-site with bricklayers & liaising with training institutions around the world to ensure our products are second to none.

From the strength of the forged steel to the perfect weight & balance – these tools symbolize quality. Guaranteed better than the rest!

Plastering & Dry Lining Tools

No trade is as demanding on the design of its tools as the plastering trade. Many tools look the same, but the OX Range has been tried and tested by tradesmen and offers unmatched quality.

OX tools do what you want them to do, over and over again.

A tough, durable design for the professional plasterer – you'll probably wear out before they do!

PRO PLASTERERS TROWEL – CARBON STEEL

Concreting Tools

Concreting is hard work and the OX range has been developed to stand the test of time.

Look at the detail of the products – the quality and thickness of the steel, the perfect amount of flexibility, the positioning of the handles, the quality of the riveting – the complete finish.

A tough range of trowels to cement your reputation.

Striking Tools

OX hammers are full of features to make them perfectly balanced and built to last.

Shock absorbing ergonomically designed handles reduce hand fatigue and vibration. The quality of the steel, the balance and comfort grip handles mean they are perfect for tradesmen who want the job done right, first time every time.

Non-slip grip with shock reduction

Ergonomically designed grip reduces fatigue and allows for multiple grip positions

Precision balanced

Premium grade, polished and heat treated steel

Forged, one piece steel construction

Striking Tools

World leading technology...

OX has redefined excellence in the world of circular saw blades with the introduction of its new superfast range.

These revolutionary saw blades have a stronger tooth bond that provides up to 50% longer life. The carbide teeth are made from a tougher than standard carbide that stays sharp longer and are sharpened to finer more durable cutting edges that produce a faster and straighter cut.

Blade cores are made from the highest quality steel, precision engineered, ground and hardened.

Blade selection & presentation

Wood – speed cut/coarse finish

For ripping through softwood, hardwood & plywood.

Wood – cross cut/medium finish

For cutting through softwood, hardwood & plywood.

Wood – fine finish

For cutting through softwood, hardwood, plywood, MDF, hardboard and wood laminates.

Wood – extra fine finish

For very fine finish when cutting through softwood, hardwood, plywood, MDF, hardboard and wood laminates.

Aluminium/Plastic/Laminate – extra fine finish

For cutting non-ferrous metals including aluminium, plastic and wood laminates.

See page 164 for TCT shelf details

Wood cutting blade

A range of high quality circular saw blades designed for a professional finish and long cutting life.

Embedded tungsten tip

 Alternate Top Bevel (ATB) tooth configuration for the pro tradesperson

Reamed bore to ensure precision fit to spindle

Expansion slots

Supplied with reducing rings (extra care must be taken when mounting blade to machine when using these)

Safe and secure blister pack

Supplied with reducing rings

Reference chart to show alternative blades available in the same size

Safety / PPE

If you are looking for hardwearing, functional Personal Protection Equipment to cope with the most extreme work conditions – OX has what you need.

Like you, we take our work seriously and believe that every detail has to be designed and manufactured with great care to ensure our products really work and also look good.

By controlling the entire chain, from design to production to the central warehouse, we can be sure that our products are of unmatched quality and consistency.

All OX safety products meet 'EN or CE standards' where applicable.

OX is known for a 'whatever it takes attitude'. Our products pass extensive network of quality checks. If we have failed somewhere in the chain, we will correct it. To us a failed product is the same as a broken trust.

Once you have tried OX Safety you will never leave it!
